

# Adam & Johanna The P Family

We know that our family is ready to expand, and that we have a lot of love to share with a new child. Johanna's mom chose adoption for her older brother, and we've seen how important birth family relationships can be. We are here to support you and help build that connection through open adoption.

We live in Nebraska and have been married for almost three years. We are currently fostering for a local animal rescue organization and have one foster dog at home, Gracie. Adam is a software developer for work. He enjoys science fiction, playing board games with friends, and craft breweries. Johanna works as a crime analyst. She enjoys cooking, trying new restaurants, all things true crime, and traveling with friends and family.
