

MICHAEL & STEPHANIE

Hello! We are Michael and Stephanie!

Most of the time you can find us enjoying time doing things we love like making things for our home in North Dakota. Stephanie loves to craft and make things to hang on the wall. While Michael loves to be working with his hands creating things. We have been married for 11 years. Stephanie is an accountant and Michael is a civil engineer. We enjoy spending time with family. Most of our family lives either in North Dakota or South Dakota and we love to travel to see them whenever we can. We love to have family, friends and neighbors over to our house on weekends, either for game nights or backyard BBQ. It's always a little crazy those nights when everyone's kids are running around the yard but we love every moment of it.

Since getting married, we have always dreamt about starting a family someday. To share with our child all the fun we have with family and friends and to take trips to show them all of our favorite spots growing up. About four years ago, we tried to start a family, but only experienced infertility. We spent so much time in prayer asking God "What's next?". He continued to direct us towards adoption by placing people in our lives who have gone through adoption. We are SO excited to have this opportunity to love and raise a child as we have always dreamt about.

Thanks for reading, we hope to meet you soon!
