

The C family,

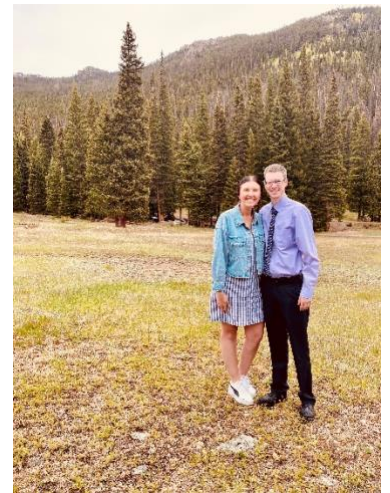

Austin and Lindsey.

Thank you for taking the time to read our short summary! We don't know you yet, however we can be certain about one thing: we know that you love and care for your baby.

Hi There,

We met in college and have been married for six years. We live in South Dakota, so that means we have four beautiful seasons to enjoy. We have a 2-year-old black lab, Cap, who keeps us on our toes! We go to the apple orchard and snowmobiling in the fall/winter months and camping and hiking in the spring/summer months. Austin is a community development director, advocating for small communities and helping them navigate through the financial assistance process to complete their projects. Lindsey is a social worker at an oncology medical clinic, helping support the emotional needs of cancer patients. Our families live close to us, which means we get to spend time with them every holiday or birthday and family dinners. Since the beginning of our relationship, one thing has been certain; we want to be parents. We feel so strongly that this has always been the path we were meant to take, and we feel humbled and honored to be pursuing adoption. If we're blessed to care for your child, we promise they will always know what love and family are. They will always know that your love for them is never ending and their store is one of grace, compassion, and so much love. If you would like to get to know us further, there is a more in depth profile book available! We wish you and your sweet baby well.

- We have a two-year-old black lab we love to take on walks
- We love to cook dinner together during the week
- We have seen every new Marvel action movie
- We enjoy snowmobiling, camping and four wheeling
- We love watching our college football team play each fall
