

The C Family

Meet Kirk & Amanda

We can be caught outside most days either tinkering on cars, working on projects, gardening or just enjoying all the beauty South Dakota has to offer. We have been happily married for 12 years and long to have a family in which we can share our lives and interests. We have two fur children Harley and Jaxie who are excited for a new sibling.

Kirk spends most of his days outside making concrete products and Amanda does Quality Control for local manufacturing facility. We both love working with and creating things with our hands and do so whenever possible.

We have started down the path of growing our family and have no doubt that adoption will be right for us. We have the utmost respect for birth mothers and their families and hope to have an open adoption with a healthy relationship with the birth mom that chooses us.

Adoption is uncharted territory for us and we can not even begin to imagine what you are going through. Your moments of happiness and grief are on a level we cannot even perceive. But it is a journey we can share and help one another navigate.

If this has caught your eye we invite you to explore our more in-depth profile. It will give you a better look into our lives and yet only scratches the surface of possibilities. We hope you will choose to get to know us. Thank you for meeting us!

5 FUN FACTS

We take random day trips, sometimes just for food.

Kirk likes Ford and Amanda likes Chevy

Both love Mexican food.

Both like anything with wheels and an engine

Kirk likes Summer and Amanda Likes Fall
