THE “H” FAMILY

DUSTIN & BETH

We grew up in the same small town, and it is home for us today. Dustin owns his own electrical business while Beth has stepped away from doing hair at her salon to focus on growing their family and looks forward to being a stay-at-home mom.

DUSTIN- He is more on the quiet side, he tends to sit back and listen but will catch you off guard with a funny one liner. He enjoys snowmobiling, going on ATV adventures and racing RC cars with our nephews.

BETH- She is warm and social but also loves quiet time at home baking sourdough and listening to a good podcast. She is the first person to call if anyone needs help with meals, party decorating or hanging out with the kids.

Family time means a lot to us and we’re lucky that a lot of our family lives close by. We love hosting Christmas, having family supper nights and our annual summer get together. Our families have been so incredibly supportive, and we cannot wait to share those traditions.

Open adoption to us means a lifelong relationship, built on love, trust and open conversation. We look forward to sharing updates, celebrating milestones and taking this step by step with you.

Thank you for taking the time to read about us! We hope our profile book gives you a true sense of who we are.
